

Example – Chartwell Flats, OX3

Completed March 2013

AST LTD

Installation of Car park Barrier

PROJECT SUMMARY

- The barrier to have warning lights on the arm and on top of the barrier housing - the warning light on the barrier arm will be illuminated at all times and the warning light on top of the housing will flash when the barrier is either opening or closing.
- Bright yellow thermo plastic lines will be painted on the floor to highlight the danger zones.
- There will be 3 safety sensors around the barrier to prevent the arm from accidentally closing.
- No Pedestrian Signs will be installed on the arm of the barrier.
- 20 Amp Isolator will be installed on barrier.
- Fixed support will be installed for the barrier arm to rest upon when barrier is closed.
- Pedestrian Rails will be installed by side of barrier for DDA Access.
- Exit loop will be installed in ground to open barrier for all cars leaving the premises.
